Bridge Tables

Bridge tables are those that primarily hold relationship information about a publication, compared to Core Tables which primarily hold the data.

- **Authors Table** — Links a document to its authors.
- **Cited Citations Table** — Links a document to its citations.
- **Cited Patents** — Links a document to cited patents.
- **Document Keywords Table** — Links a document to its keywords.
- **Document Occurrences Table** — Links a document to the files that list it.
- **Editors Table** — Links a document to its editors.
- **Publisher Addresses Table** — Links a publisher to its address(es).
- **Reprint Addresses Table** — Links a document to its reprint address(es).
- **Research Addresses** — Links a document to its research address(es).
